

**THE WISE CHILD
AND
THE WORD OF GOD**

There once was a Grandma. The Grandma went to some classes about how to understand the Bible. The things she learned in the classes helped her to understand the Bible better and not make mistakes about what the Bible really said.

The Grandma thought, “Children should learn these things so that they can spend their whole lives studying the Bible well.” But there was a lot to learn and some of it seemed too hard for children. But when the Grandma’s children were little, God had shown her how to use drawings and things that really happened in her children’s lives to explain the truths in the Bible. She had made a book out of those drawings called **The Wise Child Book**. Now her son and his wife were reading that book to her grandchildren. She had shared the book with her friends who found it helpful. “Maybe God would like me to draw another book about what I learned in the Bible classes,” she thought.

So the Grandma prayed, and she drew, and she asked her pastor and some friends for advice. And now here is a book called **The Wise Child and The Word of God**. Parents can read it to their young children and older children can read it for themselves. The Grandma prays that it will help children be able to “rightly handle the word of truth”.
